

JOURNEY THROUGH TYME WITH UBIQUITOUS!

Choose a Location

Like Rapunzel did with Jack, open your book to the map of Tyme, close your eyes, and drop your finger on a random location on the map. Do this twice to select the start and finish of your journey. Want to travel in your own world? Grab a printed map, atlas, or spin Google Earth to choose where your journey will take you.

Stock up on Ubiquitous

Head to the *Adventure* and *Edible* sections of the Ubiquitous store and secure enough supplies for your journey. Consider the distance, the days to travel, the weather you might encounter, territory you will cross, and any unexpected detours or incidents. Write what acorns you think you will need on the attached blank Ubiquitous.

Count Your Thorns

Can you afford all those acorns? Cut out your collection of acorns and show them to fellow readers. Looking at each other's collections of Ubiquitous, imagine them as the contents of a Ubiquitous store. Set a pricing structure for the acorns using the Tyme currency chart below.

Set a common budget for all the travelers. Do you need to rethink your journey based on the budget? If all the acorns you need will not fit into the budget, can you work along the way? Sell something?
